

## Technology Transfer 22 & 23 November 2010 Window Conference Venue, London UK

This 2-day interactive workshop is intended to provide an overview of the challenges that must be overcome in transferring technology and to highlight some proven techniques for overcoming those challenges.

**Some of the benefits to be derived from this workshop include:**

- An appreciation of where TT fits in the life cycle of a pharmaceutical product.
- An appreciation of the importance of planning and project management in TT.
- An overview of the potential complexity of technology and product transfer.
- An outline of proven best practice in technology transfer.
- An opportunity to discuss current issues and challenges in technology transfer with peers and with an expert faculty.

**Course Leader:**

**Chris Barnett** is an independent GMP and compliance consultancy. Chris has a talent for coaching and explaining complex regulations in a straight-forward manner.

An expert in quality management, technology transfer and new product introduction, Chris specialises in Quality Management, Technology Transfer and New Product Introduction.

Chris has a background as an analytical chemist and over 20 years experience in QA roles, with the Wellcome Foundation and GlaxoSmithKline. He has had QA management posts in India and Mexico, as well as new product introduction project management roles in pharma manufacturing. Chris graduated from Cambridge in natural sciences, with an MSc in analytical chemistry, and subsequently an MBA from Greenwich University.

**Comments from previous attendees:**

*"Very good, informative, gave a good overview of all aspects of TT"*

*"Good with experienced lecturer, lots of questions could be answered"*

*"Good overview of what a transfer should be"*

# Technology Transfer

22 & 23 November 2010  
Window Conference Venue, London UK

## Who should attend?

Pharmaceutical technologists, Quality Assurance staff, Regulatory staff, Engineering staff, Project Managers and anybody else involved in the transfer of products or technology from one location to another.

Coffee and registration will be available from 8.30am on Monday 22 November, course proper will commence at 9.00am. We anticipate the course will finish at 5.00pm on Tuesday 23 November 2010.

### Day 1

#### Why Transfer Technology?

- Pharmaceutical Product Life Cycle
  - Development
  - Innovative
  - Mature
  - Generic
- Product Transfers and Technology Transfers
  - IP
  - Technology
  - Techniques
  - Regulatory Considerations
- Registration Procedures
  - Europe
  - Non-European
- Variation Procedures
  - Types of Variations
  - Advantages and Disadvantages

Evening reception

### Day 2

#### Technical Challenges

- Manufacturing processes
- Validation
- Stability
- Packaging processes

#### Logistical Challenges

- Label Changes
  - Text
  - Physical
- Timing
  - Project Plan
  - Phase in/out

#### Human challenges

- Push versus Pull
- Team membership and team roles
- Cross-Cultural Issues
- Progress Reporting and breaking bad news

## Venue

**Window Conference Venue** 13 Windsor Street, London, N1 8QG  
convenient for central London, in a pleasant informal setting.

The course does not include accommodation, hotel details are available from our website [www.pharma-training-courses.com](http://www.pharma-training-courses.com)

Numbers are limited to give participants the opportunity for thorough discussion of the issues to be covered by the programmes and one-to-one consultation with speaker(s)

**We offer:** *Moderate prices, small classes, knowledgeable speakers with many years of industry experience.*

*GMP Auditor Training, 10 & 11 November 2010*

*How to Audit API Manufacturers, 12 November 2010*

*HPLC Analytical Method Development and Validation, 16 & 17 November, Dublin*

*Technology Transfer, 22 & 23 November 2010*

*Stability Testing of Pharmaceutical Products, 13 & 14 December 2010*

*Pharmaceutical Packaging, 15 December 2010*

*Tablet Process Development, Validation and the application of QbD,  
16 & 17 December 2010*

Check out the benefits, content, details, dates and times of our range of training programmes:

We deliver a range of expert programmes in pharmaceutical development, quality assurance and regulatory topics, plus a new range of industry awareness courses. We employ speakers/trainers with a high degree of expertise, completely up to date with industry trends.

We run our programmes in a variety of locations, throughout the year.

For 5 or more staff requiring training it may be beneficial to run a course in-house.

**The benefits** of running a course in-house:

- Up to 70% savings on delegate fees
- Save on travel or accommodation costs
- Customised content to meet your requirements
- Big print savings on course material - especially with larger groups
- Courses arranged for large groups up to 24 staff
- Tutorials available for small groups of 2 or 3 staff
- Meet course speakers in advance to discuss design and content
