

Technology Transfer 19 & 20 May 2010 Window Conference Venue, London UK

This 2-day interactive workshop is intended to provide an overview of the challenges that must be overcome in transferring technology and to highlight some proven techniques for overcoming those challenges.

Some of the benefits to be derived from this workshop include:

- An appreciation of where TT fits in the life cycle of a pharmaceutical product.
- An appreciation of the importance of planning and project management in TT.
- An overview of the potential complexity of technology and product transfer.
- An outline of proven best practice in technology transfer.
- An opportunity to discuss current issues and challenges in technology transfer with peers and with an expert faculty.

Course Leader:

Chris Barnett Director CMBarnett Pharma Services Ltd, an independent GMP and compliance consultancy. Chris has a talent for coaching and explaining complex regulations in a straightforward manner.

Chris is an expert in quality management, technology transfer and new product introduction and specialises in Quality Management, Technology Transfer and New Product Introduction.

Chris has a background as an analytical chemist and over 20 years experience in QA roles, with the Wellcome Foundation and GlaxoSmithKline. He has had QA management posts in India and Mexico, as well as new product introduction project management roles in pharma manufacturing. Chris graduated from Cambridge in natural sciences, with an MSc in analytical chemistry, and subsequently an MBA from Greenwich University.

Comments from previous attendees:

"Very good, informative, gave a good overview of all aspects of TT"

"Good with experienced lecturer, lots of questions could be answered"

"Good overview of what a transfer should be"

Window Conference Venue, London UK

Who should attend?

Pharmaceutical technologists, Quality Assurance staff, Regulatory staff, Engineering staff, Project Managers and anybody else involved in the transfer of products or technology from one location to another.

PROGRAMME

Start time:

Coffee and registration will be available from 8.30am on Wednesday 19 May, course proper will commence at 9.00am. We anticipate the course will finish at 5.00pm on Thursday 20 May 2010.

Day 1

Why Transfer Technology?

- Pharmaceutical Product Life Cycle
 - Development
 - Innovative
 - Mature
 - Generic
- Product Transfers and Technology Transfers
 - IP
 - Technology
 - Techniques
 - Regulatory Considerations
- Registration Procedures
 - Europe
 - Non-European
- Variation Procedures
 - Types of Variations
 - Advantages and Disadvantages

Evening reception

Day 2

Technical Challenges

- Manufacturing processes
- Validation
- Stability
- Packaging processes

Logistical Challenges

- Label Changes
 - Text
 - Physical
- Timing
 - Project Plan
 - Phase in/out

Human challenges

- Push versus Pull
- Team membership and team roles
- Cross-Cultural Issues
- Progress Reporting and breaking bad news

Venue

Window Conference Venue 13 Windsor Street, London, N1 8QG
convenient for central London, in a pleasant informal setting.

Accommodation: hotel details are available from our website

Numbers are limited to give participants the opportunity for thorough discussion of the issues to be covered by the programmes and one-to-one consultation with speaker(s)
